___ Recommended for listing in the National Register of Historic Places.

If checked, you must attach a completed National Register Criteria Statement form.

Use as much space as necessary to complete the following entries, allowing text to flow onto additional continuation sheets.

ARCHITECTURAL DESCRIPTION:

Describe architectural features. Evaluate the characteristics of this building in terms of other buildings within the community.

The one-and-a-half story house at **57 Pike Street** rests on a rectangular granite foundation. The two by two bay dwelling has a one-story rear ell. The front gable roof is sheathed in asphalt shingles. The walls are clad with wood shingles. The front entrance is located on the north side of the east façade and shielded by a projecting one story enclosed porch. One 1/1 replacement sash window is located to the south of the entrance door. Fenestration includes 1/1 replacement sash windows flanked by white shutters. A small one story shed addition is located at the rear of the ell. A narrow brick chimney is located on the south slope of the front gable roof.

A one-story one car garage is located to the south of the house. The front gable roof is clad in asphalt shingles and the garage walls are sheathed in wood shingles. A pair of swinging doors is centrally located on the east façade.

HISTORICAL NARRATIVE

Discuss the history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.

In 1876 Elbridge Livingston sold his house at 22 Astle Street (TEW.XXX) to Thomas C Barker. In 1880 Elbridge sold Barker a parcel of land south of his house on what is now Pike Street, formerly Pleasant Street. A map of 1889 indicates that Barker, a partner in Taylor and Barker Chemical Manufacturing Company off Main Street owned two dwellings (#57 and #53) on Pike Street. In 1906 Taylor and Barker sold the Pike Street dwellings to Thaddeus, Manter & Stella Garland. Manter Garland was a farmer who lived on Astle at the corner of Pike Street. The following year the Garland's sold the dwellings to Ferdinand (Fred) Banville, a machinist, and Banville split the lot retaining his residence at 53 Pike Street (TEW. XXX) and sold the southern half of the premises to Adelard Dubuque.

According to Assessor's Records the dwellings were built c 1872, but they do not appear on the 1875 map. They were likely built by Barker 1880-1889 probably to rent to workers at his chemical plant. In 1900 Census records two families headed by men who worked at Taylor and Barker Chemical Manufacturing Company were renting on Pike Street near the Sullivan family at 91 Pike Street (TEW.XXX).

Additional owners: Adelard Dubuque (1907-1910); Albert Loeselle[Loeselle], a chemist at Taylor and Barker & his wife Blanche (1910-1917); Mary Paravolotis, the wife of Thomas and a Greek immigrant (1917-1951); and George Perivolotis, Mary's son & his wife Louisa (1951-2009).
